DRIVING DIGITAL TRANSFORMATION WITH **AUTOMATION & ARTIFICIAL INTELLIGENCE**

From RPA to LLM-powered virtual assistants:
Practical solutions for companies seeking efficiency, speed, and scale.

WHAT WE DO:

At GSB, we help companies optimize their operations through automation solutions and artificial intelligence technologies. Our approach combines tools such as RPA, virtual assistants, natural language processing (NLP), and cutting-edge large language models (LLMs) to automate tasks, reduce errors, and enhance customer experience.

SOLUTIONS WE OFFER:

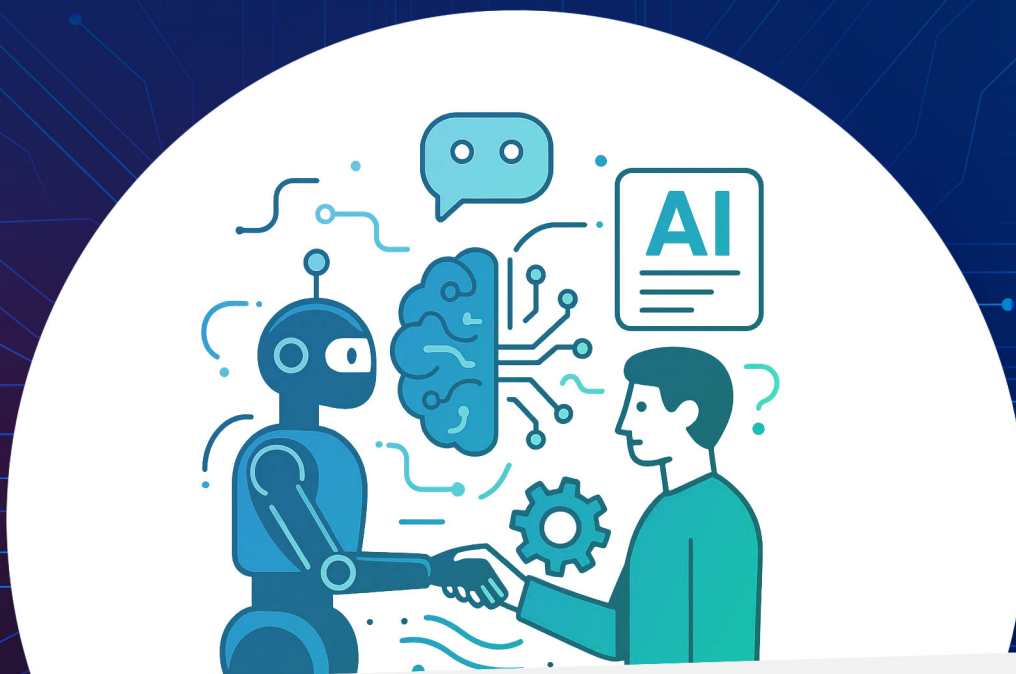

- ✓ Robotic Process Automation (RPA)
- ✓ Trained chatbots and virtual assistants
- ✓ Sales and marketing automation
- ✓ Intelligent data processing (NLP)
- ✓ Implementation of large language models (LLMs)
- ✓ Integrations with existing systems (ERP, CRM, etc.)

SUCCESS STORIES:

- ✓ **LOGISTICS INDUSTRY:** A virtual assistant resolved 80% of frequent inquiries within 3 months.
- ✓ **INDUSTRIAL COMPANY:** RPA reduced purchase order processing time by 70%.

WHO IT'S FOR:

Our solutions are designed for companies across all industries that want to streamline internal processes, scale customer service, or digitize their commercial operations.
